Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, drawn to underwater weapon, classified in class 89, subclass 7.
- II. Claim 15, drawn to a system for producing a cavitating jet, classified in class 440, subclass 45.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different functions. Invention I is directed towards a weapon and Invention II has a different function such as propulsion for a boat.

During a telephone conversation with James Kasischke on 5/3/04 a provisional election was made with traverse to prosecute the invention of an underwater weapon, claims 1-14. Affirmation of this election must be made by applicant in replying to this Office action. Claim 15 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 4, 9 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by Edlin (1117351).

As to claim 1, disclosed is the step of filling a chamber, injecting fuel in the chamber; igniting the fuel, ejecting the created pressure and removing the combustion gas.

As to claim 4, disclosed is the step of injecting the fuel into the chamber with the pressure in said chamber is substantially maintained.

As to claim 9, Edlin discloses a containment chamber (2) in communication with a source of fluid and a source of fuel; an igniter (12); a nozzle (pipe); an exhaust passageway (pipe).

As to claim 10, disclosed is a controller (5).

***Allowable Subject Matter***

Art Unit: 3644

Claims 2, 3, 5-8 and 11-14 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
